

New York Stock Market

New York, July 16.—Further improvement was noted in the sluggish movement of the stock market today. The prevailing factors were additional favorable crop reports and greater ease of money on call and time. This latter condition was directly traced to confidence due to last Saturday's bank statement, although it is probable, in the opinion of competent authorities, that any pronounced increase in demand especially for long time accommodations, might easily cause a revival of last week's higher quotations.

Practically all the standard issues as well as a number of more obscure issues took part in today's advance, which halted in the late afternoon on reports from Washington that the Stanley investment committee is likely to recommend the dissolution of the United States Steel Corporation.

Great Northern preferred was the strongest of the railway stocks, reflecting the agricultural news from the Northwest. Trading slackened in the final hours, with a total output of minor proportions.

The bond market was featureless, with a steady decline. Total sales, however, amounted to \$1,000,000. United States government bonds were unchanged on call. Total sales of stocks were 23,000 shares.

RURAL LIFE WEEK AT UNIVERSITY

Four Days' Session Was Opened Yesterday With Interesting Talks.

(Special to The Times-Dispatch.) Charlottesville, Va., July 16.—Rural life week, for several years one of the chief features of the University of Virginia summer school, began today and will last four days.

The conference was opened at 11:30 o'clock this morning (assembly hour), when the 1,200 teachers of the school were addressed by Dr. W. M. Davidson, superintendent of the Washington, D. C., schools.

The first speaker was the Hon. Bradford Knapp, who is in charge of farm demonstration work in the United States. He spoke on "The Country Boy."

At the night session, held in Cabell Hall, M. O. Edinger, of the United States office of public roads, Washington, D. C., gave an illustrated lecture on the benefits resulting from improved roads.
